

(LAND) SURVEYOR / TOPOGRAPHER

The company:

Our client is a multi-specialized construction group with more than two thousand employees.

The growth model is based on 3 pillars:

- Diversification
- Innovation
- Export

We do not innovate only in one specialty, but more as a total business in several disciplines : water, energy, mobility , restoration, engineering, special techniques and other specialized techniques. Our client is, a popular partner for the most complex projects and infrastructure works.

With exceptional technological know-how and an impressive fleet of machines, Our client is currently builds pipelines in several European Countries, such as; Germany, Czech Republic, Italy, Poland, France, Belgium, the Netherlands, ... We would like to reinforce our teams with a (Land) Surveyor / Topographer; with a first experience and high affinity for gas pipelines, who is open for international assignments.

Your challenges:

For our division Cables & Pipelines, we want to strengthen our teams with Topographers, who are willing to cooperate on national or international sites (different European countries like Germany, Poland, France, the Netherlands, Africa, ...):

- You are responsible for carrying out topographic measurements on the assigned site.
- You are responsible for the preliminary phase, but also the supervision during the implementation of the project.
- You guide, follow and control the implementation of the geometry activities, based on the plans.
- In consultation with the project team, you develop necessary measures and apply them.
- You solve technical problems on a regular basis, in which you use surveying techniques.
- You ensure an accurate processing of the data and report to the Project Manager so that he is perfectly informed of the activities in this area.

Your profile:

- You have a Bachelor or Master in Land Surveying.
- A first experience is an asset but not a requirement.
- You are accurate, stress-resistant, creative and result driven.
- You are looking for assignments within Europe or Africa and you enjoy working both in a team and on an independent basis.
- You are able to analyze and apply technical guidelines.
- You are flexible.
- You have a good knowledge of English, German or other languages.

Our client offers:

- A challenging job in a fast growing company with opportunities abroad.
- The opportunity to work on big and complex projects
- A salary package that rewards your performance and experience.
